# ABOUT BITCOIN PENGUINS

**Meet the friendliest birds on the ice: these cute birds have been stacking sats since 2013, waddling through the coldest markets without a single FUD quiver. Now they're surfacing en masse—cute as ever, but armed with unstoppable buy pressure.**

In an era of fleeting trends, Bitcoin Penguins is a testament to the fact that community, transparency and hard coded value can make a project able to weather the toughest crypto winters, and take advantage of the bullests of bull runs.

## WHY PENGUINS, WHY NOT FROGS, DOGS OR CATS?

Well, honestly - Penguins are soooo in right now, and don't take our word for it, just look at the market! Penguins are the latest meme trend, and we never want to let a good trend go to waste.

But that is beside the point, Penguins are not just memes, and the project is more than that - Bitcoin is approaching its next all time high, and we think the Penguin perfectly symbolises the next phase of what it means to be a Bitcoin believer and what will take us truly parabolic (plus there was that great new HBO series with Colin Farrel - it truly is the time for the Penguin).

# **VISION & MISSION**

**To create the most recognized, community-powered penguin-themed ecosystem in crypto—bridging the security of Bitcoin with the playful, participatory culture of memes and staking.**

## **MISSION**

- **Build an enduring brand that transcends market cycles.**
- **Deliver consistent value via staking, rewards.**
- **Establish the first meme coin that symbiotically rises with Bitcoin's price.**
- **Buy Antarctica and make it into a penguin sanctuary.**
